laws and ordinances relating to health and sanitation of the city of new orleans 1906 1907

how far are cultural differences expressed in mental illness are the paintings of the insane dependent on a particular cultural background what are the standards of judging abnormality in a given culture the author examines all these problems on the evidence of the artistic products of the mentally ill he has made a collection of such works from various cultures he also scrutinizes the history of some well known artists his consideration of cultural influences on individuals ranges from hunting to spiritualism the study is not intended for specialists only but for the interested member of the general public as well back cover

in cultural property crime various experts in the fields of criminology art law heritage studies law enforcement forensic psychology archaeology art history and journalism provide multidisciplinary perspectives on today's concept of cultural property crime including art crime in addition the volume deals with international legal and practical developments regarding the increasing criminalization of acts against cultural property in times of conflict attention is paid to the changing status and fluctuating appraisal of cultural property as subject to classical art crimes generally in peacetime and as an identity related symbolic target during conflict the book covers a wide range of topics such as forgeries white collar crime archaeological looting and the impact of war on cultural heritage

through an interdisciplinary multicultural approach this book explores the role of psychiatric art in facilitating personal empowerment fostering the healing process and confronting stigma today when we are constantly reminded of the dangers of thinking in exclusive terms art affords us a model of dialogue in which the other is accepted as an equal conversation partner art fosters co-operative communication in which dignity and individuality of a mental health patient may be reaffirmed at the same time art allows for critical distance retrospection and vast opportunities for individual choice and thus may be conducive to an improved self image and self esteem the book discusses norm and its transgression as aesthetic categories influencing the understanding of outsider and mainstream art the role of art as a social force that contributes to the way mental health and illness are perceived in a given community is also addressed understanding the mechanisms underlying aesthetic perceptions of art helps us understand how psychiatric art can be used to help fight stigma associated with illness special attention is given to the semiotics of the portrait a genre with an especially marked dialogical potential that still lacks a systematic study in the context of psychiatric art the book is addressed to psychiatrists other mental health professionals as well as scholars in humanities and social sciences concerned with the issues of creativity and the mind
